

EXPERIMENT NO. I

AIM — Design an ER diagram for an Indian E-Commerce platform with entities customer, product, order, order item, seller, category, payment, delivery, address. Specify primary keys, composite and multi-valued attributes, weak entities, specialization of product and participation constraints.

Key Components —

- 1.) Entity - Real world object represented by 
- 2.) Attribute - Property of an entity
- 3.) Primary Key - Uniquely identifies an entity
- 4.) Weak Entity - Entity that depends on another
- 5.) Relationship - Association between entities
- 6.) Specialization - Dividing an entity into subclasses
